(0 comments)

eBook Converter Mac helps you convert eBooks to any other format on Mac computer. It supports the mainstream file formats conversion, including converting epub to pdf, pdf to epub, kfx to pdf, mobi to pdf and so on. The Ultimate eBook converter mac also enables you edit the metadata of both original and converted files. With the best eBook converter, you can easily enjoy reading on any devices.

### Epubor eBook Converter Download

## Epubor eBook Converter Mac Creative Features

Just like other Epubor software, Epubor eBook Converter supports both Windows and Mac system. Here I want to share the main creative features of Epubor eBook Converter.

### Support multiple input and output formats

Ebook Converter Mac supports various input and output formats. It supported input formats are KFX, EPUB, PDF, AZW, AZW1, AZW3, AZW4, Mobi, PRC, TPZ, Topaz, TXT, and HTML while output formats are EPUB, Mobi, AZW3, TXT, and PDF.

**Note:** eBook Converter Mac only converts the DRM-free eBooks. If your books are protected by DRM, please use [Epubor Ultimate](#) to strip the DRM and proceed the conversion process.

### Preserve the best conversion quality

Epubor eBook converter Mac offers a high quality eBook conversion to preserve your original contents and layout design. With the efforts of Epubor developers, Epubor eBook converter can easily detect the differences between different formats automatically and match it closely with the original book.

## Support editing metadata

Epubor eBook Converter also can works an eBook metadata editor. It allows you edit the metadata of the original book as well as the converted file. With it, it is easy to view and modify the metadata of the eBook, including title, author, identifiers, publishing date, language, publisher, introduction and even the book cover.

## Support bath conversion with the high speed

Are you tired of converting one eBook at a time? Epubor eBook converter will take you out of this dilemma. It supports batch conversion which means you can add many eBooks of various formats at a time, and convert them to one format by one click. What's more, the conversion speed is very fast since the eBook converter adopts exclusive conversion tool--eCore. It only takes 47 seconds to convert one hundred azw files (333MB) to epub according to my test.

## Detect and load the books automatically

It allows users to set the favorite path. Once the favorite path has been set, the book stored at this path will be load automatically to your eBook Converter. In this situation, you do not have to open this folder every time you want to convert your books.

## User-friendly interface

The interface is neat, simple and unique but contains every necessary button to realize the conversion function.

# How to Convert eBooks with eBook Converter Mac

## Step 1: Download Epubor eBook Converter Mac

## Step 2: : Load eBooks to eBook Converter Mac

There are 3 ways to load eBooks to Epubor eBook Converter. One is to drag and drop books to the main interface of eBook Converter for Mac. The second method is clicking on “+Add”button at the top center and navigating to the folder stored the books and then selecting the book you want to convert. The last method is setting the folder stored the books you want to convert as the favorite and the books will be loaded to the left column automatically under Favorite tab.

### Step 3: Convert eBook to any other format with eBook Converter Mac

When the books have been added, select the output format for your eBooks. Then click on "Convert to XX" to start the conversion. When the conversion has been done, the folder stored the converted file will be pop up automatically.

As the best eBook converter for Mac, Epubor eBook converter enables you to convert eBooks in bulk with the fastest speed ever. You can also edit the metadata of the eBooks. It is really worth trying.
